Divine Organic Farm Stay
and Research Center**

Khairahani Municipality-5, Chitwan

Introduction

Divine Organic Farm Stay and Research Center is situated at Khairahani Municipality ward no. 5 Chitwan. It occupies an area of 8 hectares of land, out of which 2 hectares are used for organic farm stay and the remaining land is used for commercial banana production. The farm lies 3.5 kilometers south from the east-west highway leading from Chainpur Chowk or Chaubiskoti Chowk of Parsa City. It is registered in Small and Cottage Industry Office, Bharatpur Chitwan as an agriculture enterprise in 2075/1/23 B.S. (2018/05/06 A.D.).

Infrastructures:

- Organic farm is established in 2 hectares of land
- Commercial banana orchard is maintained in 6 hectares of land
- Training hall with capacity of 30 trainees at a time
- Guest house that can accommodate 32 guests at a time
- Four separate cottages with accommodation capacity of two guests each
- Organic restaurant with serving capacity of 20 guests at a time
- Local poultry shed with free roaming area for 500 birds
- Vermicomposting shed with 9 composting pits
- Plastic house (900 sq. ft. area)
- Labor quarter and farm store building

Objectives:

- To conduct residential training for farmers regarding organic vegetables and fruits production
- To conduct organic/agricultural research activities
- To demonstrate integrated agricultural activities in a single farm
- To provide residential training for national and international volunteers
- To develop farm as a learning center for school and college students

Major activities and Services:

Divine Organic Farm Stay and Research Centre is an integrated organic farm with residential facilities. The center is not only focusing organic production of fruit and vegetables but also organic research and agro tourism. The major activities are as follows:

Production of organic fruit and vegetables

- Currently organic banana, dragon fruit, pineapple, asparagus and other seasonal vegetables are growing

Vermicomposting

- Nine vermicomposting beds are being used to produce vermicompost

Farmers training

- Residential training for farmers in the field of organic fruits, vegetables, fisheries, dairy, goat farming, etc.

Exchange of agriculture volunteer

- Younger generations are encouraged to get proper agricultural training and serve as volunteers nationally and internationally to exchange knowledge and experience.

Rearing of local poultry

- The center is rearing 500 local chicks under a semi-free range system.

Formulation of organic manure and insecticide

- The center is formulating liquid manure and organic insecticides for farm use.

Residential Facility:

- The Centre has a hostel and four separate cottages which can accommodate up to 40 people
